

2740 Project

09- Lazy Loading

(20 pts)

Since this assignment is soooooo easy, you will build a brand new design for your two page website.

NEW TEMPLATE

3

Go to template monster for inspiration. Build a really cool new design that you could show to clients as an example of you prowess as a designer.

- New Template
- Phone version
- Tablet Version
- Desktop Version

STICKY BORDER

2

Have the menu bar stick to the top of the page

- Implement a jQuery sticky border for the navigation

LAZY LOAD ONE

5

Build me a page with 10 large graphics and use a grey one-pixel gif as the placeholder

- 10 images
- grey 1 px gif
- completely responsive images (no distorting)

LAZY LOAD TWO

5

Build me a page with 10 large graphics and use a highly compressed grey scale image as the placeholder.

- 10 images (can be the same as project one)
- grey scale highly compressed placeholder
- completely responsive images (no distorting)

ADD2HOME

2

Tryout the apple only "Add2Home" message for this site and see if you like it. It instructs users how to make your website look like an app on their phone.

- Implement Add2Home

LOOK AND FEEL

3

How professional and polished does this look?

- Perfect CSS=3, Minor flaws = 2, Multiple mistakes = 1
